

**NATIONAL DISASTER MANAGEMENT AGENCY (NaDMA)
MEDIA RELEASE**

**Beryl now a Dangerous Category 3 Hurricane
Release #12**

St. George's, Grenada – Monday 1st July 2024, 2:00 a.m.

Grenada, Carriacou, and Petite Martinique are currently under a Hurricane Warning.

At 2:00 am, the eye of Hurricane Beryl was located near latitude 11.5 North, and longitude 59.1 West. Beryl is moving toward the west near 20 mph.

A continued quick westward to west-northwestward motion is expected during the next few days. On the forecast track, the center of Beryl is expected to move across the Windward Islands this morning and across the southeastern and central Caribbean Sea late today through Wednesday. Maximum sustained winds are near 120 mph with higher gusts.

Beryl is a category 3 hurricane on the Saffir-Simpson Hurricane Wind Scale. Fluctuations in strength are likely during the next day or so, but Beryl is expected to remain a dangerous major hurricane as its core moves through the Windward Islands into the eastern Caribbean.

Hurricane-force winds extend outward up to 30 miles from the center and tropical-storm-force winds extend outward up to 115 miles. Grantley Adams International Airport in Barbados recently reported a wind gust of 45 mph. The minimum central pressure based on Hurricane Hunter aircraft data is 965 mb.

The Met Office and NaDMA continue to monitor this system.

The public is encouraged to follow the advisories and forecasts the Meteorological Office and NaDMA issued.

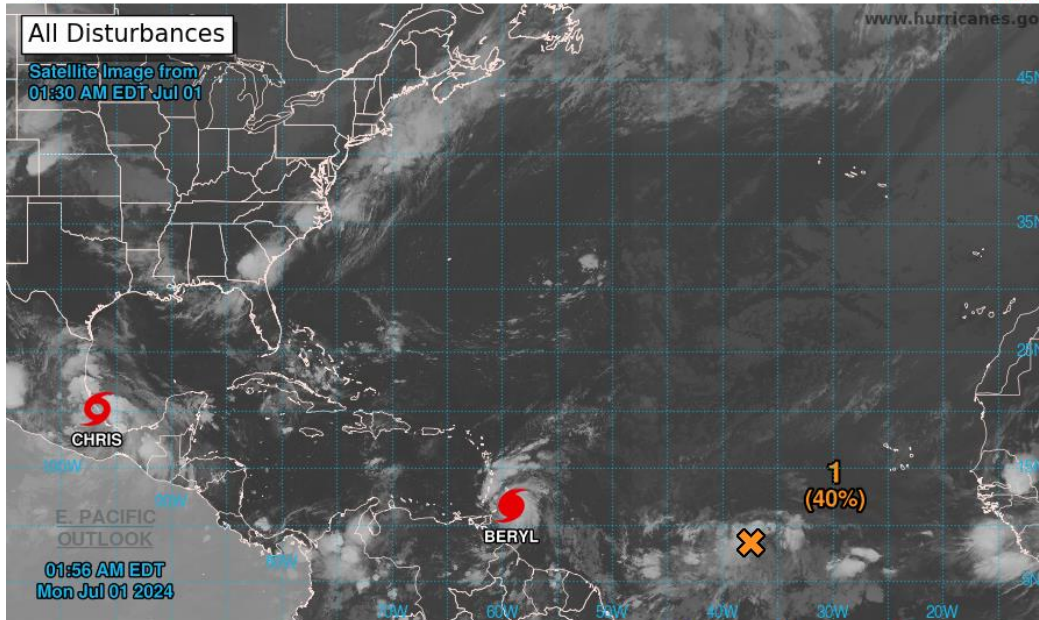

For additional information, contact Mrs. Ruth Jacob-Roberts, Public Information Officer at NaDMA 440-8390-4: cell 533-0766, or email: admin@nadma.gd and pro@nadma.gd.

NaDMA is the official source for all disaster-related information in Grenada.
