

## **NATIONAL DISASTER MANAGEMENT AGENCY (NaDMA)**

### **MEDIA RELEASE #2**

#### **Elevated seismic activity at the Kick ‘em-Jenny Submarine Volcano**

#### **FOR IMMEDIATE RELEASE**

**St. George’s, Grenada – Friday 29<sup>th</sup> August 2025. 2:30 p.m.**

The University of the West Indies Seismic Research Centre (UWI SRC) has advised the National Disaster Management Agency (NaDMA) of elevated seismic activity at the Kick ‘em-Jenny (KeJ) Submarine Volcano. The unrest began **on Wednesday, August 27, 2025.**

According to UWI SRC, between **12:00 noon on Thursday, 28 August and 08:30 a.m. on Friday, 29 August**, the network recorded approximately **72 events**. This corresponds to an average of 3-4 tremors every hour, which continues to reflect a lower level of activity compared to the beginning of the episode. The tremors have measured in the magnitude range M1.4-1.8.

As a result of this recent activity, the alert level remains at **YELLOW** (volcano is restless; activity may be increasing).

NaDMA continues to monitor the situation closely and will provide timely updates to the public through official channels. Residents are urged to follow all guidance issued by the relevant authorities.

For additional information, please contact Mrs. Ruth Jacob-Roberts, Senior Information Officer at NaDMA on 440-8390-4: cell 533-0766, or email: [admin@nadma.gd](mailto:admin@nadma.gd) and [pro@nadma.gd](mailto:pro@nadma.gd).

#### **Kick ‘em-Jenny Submarine Volcano Alert Levels**

**GREEN** - Volcano is quiescent, seismic and fumarolic (steam vent) activity are at or below the historical level at this volcano. No other unusual activity has been observed.

**YELLOW** - Volcano is restless; seismicity or fumarolic activity or both are above the historical level at this volcano or other unusual activity has been observed (this activity will be specified at the time that the alert level is raised).

**ORANGE** - Highly elevated level of seismicity or fumarolic activity or both, or other highly unusual symptoms. Eruption may occur with less than 24 hours-notice.

**RED** - Eruption is in progress or may occur without further warning.
